

Why do I need Video?

Video, the combination of moving images and sound is a real buzz word these days. For businesses and personal events, you got to have a video. For me it is obvious but for you, perhaps it is not.

So Why do you need a video?

Good question, I am glad you ask.

Here are 10 reasons.

1. It works....will get you noticed and business
2. To have a moment in our lives that can be experienced again...in old and new ways.
3. Its a rewarding challenge
4. You missed experiencing the event being so involved.
5. Some one else missed experiencing the event cause they were not there.
6. Visual and Audio together best show what you have to offer.
7. It can personalize your approach.
8. Cause its fun and neat to be on TV.
9. Your competition is doing it
10. Cause I say so

The Studio presents The Magic of Video **Green Screen**

What is Green Screen?

- In the simplest terms- it allows us to video a person in front of a green background and replace the background with any image you like
- We can place a company logo, a graphically generated image, a jpeg or a moving video clip.
- In a professional studio setting, we light the subject and background
- We take your script, which we can assist you in creating and place it on our teleprompter.
- Professional mic'ing and camera complete the process.

All post-production and uploading to the web is included.

We will provide you with a professional looking video for placement on your homepage, to use in a video blog and/or to e-mail to your clients.

\$ Reasonably priced at only \$300 for 30 minutes or \$500 for one hour

Examples of our Green Screen Videos

Something To Take Away

Video is a Memory Keeper

1. Video is a memory maker and keeper!
2. Consider all the visuals you process of your family and friends photos, computer files, flash cards, videotape, film, slides.
3. Why not put all that in one convenient place?
4. We can place all this on a DVD and the internet, or back it up on a memory stick.
5. While we are at it we can add titles, effects, music and narration.

10 Reasons to Hire a Professional

1. Experience
2. The right equipment
3. Knowing how to get your message or event across
4. Having back up...Gear and personal
5. Having the right resources to get the job done right

6. Help place the video on the Internet
7. Being polite and indiscreet
8. Keeping to a schedule and having the project done on time
9. You want it done right
10. Its his job and he will do his best to get you to help him get his next job

Let The Studio create an ever-lasting memory for you!
