My New Video Camera... and why I love it.

The question is not really why I love my new video camera but why you will, when I use it to create videos for you.

It has many features, but what is more relevant is the benefit these feature give to the videos I produce on it.

The most obvious benefit is achieved from the most obvious feature, the compact size of the camera. This is a small camera. (fits in palm of my hand) What this allows me to do is get right in the action and capture the moment before it passes.

I can now shoot a lot longer hand held with out feeling the strain of a larger camera. Along with the small size comes incredible image stabilization features. Moving this camera though a scene is very smooth. I can now get quality exciting shoots where before I needed to use expensive and cumbersome rigs.

The low light sensitive with a built in light will allow me to shot anywhere and time and again get the best possible results. A built in Hard Drive gives me 8 hours of Hi Definition recording. I do not have to worry about tape changes and am assured of easy and quick transfer to my editing software. Saving time having an efficient workflow allows me to work faster and thus less time allows a lower

King David Grad Commencement

cost to you, my customer.

Finally the camera overall makes me a very happy camper... and a happier camper just makes me a better videographer

Sincerely,

David Cooperstone

The Magic of Video Green Screen

What is Green Screen?

- In the simplest terms- it allows us to video a person in front of a green background and replace the background with any image you like
- We can place a company logo, a graphically generated image, a jpeg or a moving video clip.
- In a professional studio setting, we light the subject and background
- We take your script, which we can assist you in creating and place it on our teleprompter.
- Professional mic'ing and camera complete the process.

All post-production and uploading to the web is included.

We will provide you with a professional looking video for placement on your homepage, to use in a video blog and/or to e-mail to your clients.

\$ Reasonably priced at only \$300 for 30 minutes or \$500 for one hour

Something To Take Away Need or Want a Video

When you call or email, or I meet with
you, here are some things to consider.

1. What exactly do you want video
taped.
2. Who is your audience?
3. What is the final length of the video
you are considering?
4. How and where are you going to
distribute the video, DVD, internet
web site or social media?
5. When do you want the video to be
completed by?
6. Do you think multiple cameras are
necessary?

New on Vimeo in Profiles (EVENTS)

[http://vimeopro.com/studiovideo/the-studio-
video-facilities-events](http://vimeopro.com/studiovideo/the-studio-video-facilities-events)

At Richmond Chamber AGM
with New Camera

7. Is narration, music, titles graphics going to be needed?
8. Are there any specific shots or scenes you are considering?
9. Is there any AV involved in the event i.e. PowerPoint?
10. What is your budget?

Let The Studio create an ever-lasting memory for you!
